Practical Ophthalmology: Conference & Workshop

1-day Conference: 5 April 2024
1-day Workshop: choose 6 or 7 April 2024
The University of Sydney NSW

THE UNIVERSITY OF
SYDNEY
—
Centre for
Veterinary
Education

Improve your understanding and capabilities in veterinary ophthalmology!

Join eminent specialists Drs Mark Billson, Allyson Groth and David Maggs who believe CE should be practical, enlightening and fun!

Friday is spent bringing you up to speed on the latest theory. The practical workshop on Saturday or Sunday (your choice) will see you working with live dogs and practising the latest surgical techniques in the web lab using cadavers. Three tutors and the small group size ensure plenty of on-the-spot guidance, interaction and feedback.

Note: Enrolment in the conference is a prerequisite for the workshop. If you participated in the conference last year but missed out on a place in the workshop, book today to secure your place as numbers are strictly limited.
